ICT Media, the successor of IDG Bulgaria, is the leading publisher in the field of information and communication technologies in Bulgaria.

ICT events and conferences are a very important and ever growing part of ICT Media activities. They attract attendees and prominent speakers from vertical segments such as banks, insurance companies, industry, trade and the government as well as people with professional interest in hot topics and developments such as telcom solutions, security and storage solutions, ERP and CRM implementation. ICT Media events provide unique face-to-face opportunities for marketing and for establishing of solid and beneficial business contacts, with an access to key top managers and a chance to present companys' strategies, brands, products and services.
